PROFILE

With 10+ years of experience in Dealer Sales, Business Strategy, and Business Intelligence within the automotive industry, I specialize in leveraging data-driven insights to optimize sales performance, enhance marketing strategies, and drive business expansion.

PROJECT

Business Intelligence & Sales Performance Enhancement 2025

- Designed and implemented a data collection system with Power BI dashboards for Sales, Wholesale, and Marketing analysis, reducing workload by 3 hours daily and enabling real-time strategy adjustments for increased revenue and conversion rates.

Lead Management System Development 2023

- Designed and implemented a nationwide LMS for customer data tracking, sales follow-ups, and analysis, boosting conversion rates, engagement, and profitability.

Northern Dealer Sales Growth Strategy 2021

- Developed and executed a strategic growth plan for Northern dealers, increasing sales from 1,346 units in 2020 to 1,902 units in 2021 (+41%).

WORK EXPERIENCE

Ford Sales & Service 2026 - Present

Senior Sales Analyst

- Data-Driven Insights: Utilized Big Data and Power BI to develop interactive dashboards, KPI, Target, optimizing supply-demand alignment and real-time strategic decision-making.
- Sales Strategy & Forecasting: Led national sales forecasting and performance tracking, leveraging industry trends to optimize dealer objectives and market strategies.
- Process Optimization: Automated complex data workflows from VISTA/SEER systems, significantly improving reporting accuracy and operational speed.
- Incentive & Performance Management: Managed intricate incentive structures and performance summaries for dealers and management to drive national targets.
- Cross-functional Leadership: Collaborated with Marketing, Finance, and Zone Managers to synchronize operations and ensure cohesive reporting.

WORK EXPERIENCE

Ford Sales & Service 2018 - 2026

Sale Zone Manager

- Oversaw and supported dealerships across multiple regions, including the East, South, North, and Northeast.
- Worked closely with dealerships to strategize and execute monthly sales, stock, and production rollout plans, proactively driving dealers to meet and surpass sales targets (Volume and Market Share).
- Developed and trained dealership teams in sales skills, providing guidance on both offline and online sales strategies. Motivate team to align with company direction.
- Planned and executed marketing activities and campaigns to generate prospects and secure bookings, ensuring alignment with dealership operations and company stock levels.

Ford Sales & Service 2017-2018

Sale Analyst

- Set monthly and annual dealer targets using predictive analytics for accuracy.
- Developed automated reports and forecasting models (e.g., Financial Model, Sales Stock Run Down, Dealer Business Plan) to optimize sales and production planning.
- Supported sales forecasting and inventory optimization by integrating large-scale data analysis.

Ford Sales & Service 2015-2016

Management Trainee, Sales (Rotated across 5 functions)

- Sales Planning – Forecasted vehicle sales volume, analyzed aging stock for marketing campaigns, and developed sales reporting systems.
- Sales Operation (Wholesale) – Managed vehicle wholesale to dealers, led the Transfer Center Project to optimize vehicle exchange, and improved yard management efficiency.
- Sales Analyst (Retail) – Analyzed retail sales data, optimized vehicle mix and color selection, and provided data support for decision-making.
- Fleet Analyst – Assisted in fleet strategy planning, consolidated fleet documents, and streamlined operations.
- Sales Zone Management – Supported dealer sales strategies and collaborated to achieve sales targets.

Exxon Mobil Corporation 2014

Industrial Engineer Trainee

- Optimized fuel delivery by minimizing cost, distance, and time while analyzing end-to-end oil refining processes. Developed supply chain concepts for materials, workflow, and workstation support, improving efficiency and quality.
